### **Upgrade Method**

The upgrade procedure of 101SI is described below.

This document explains Windows7 to an example.

As for the operating method, Windows XP, Windows Vista, too, become a similar procedure.

#### **Upgrade Flow**

#### Upgrade tool download from SII homepage.

http://www.sii.co.jp/101si/download/index.html

Please confirm "101SI ソフトウェア使用許諾契約" and download the update tool.

#### **Connecting WLAN.**

- ·Connecting 101SI and PC by WLAN. (About operation method, refer "101SI Quick Start" or "SoftBank 101SI User Guide".)
- ·Start Upgrade tool after download from SII homepage.
- ·Connecting to 101SI by Upgrade tool.
- \*For more detailed information about the operation, please refer to "Connecting to PC by WLAN (Page.9)".

#### **Upgrade 101SI Firmware**

- ·Click "Connect" button" on Upgrade tool. Upgrade will start.
- ·When upgrade was completed,
- the status display on upgrade tool becomes "FW Update completed".
- ·After upgrade was completed, close Upgrade tool.
- \*After upgrade was completed, you may uninstall the upgrade tool from the PC.
- \*For more detailed information about the operation, please refer to "101SI Upgrade (Page.10)".

### Connecting to PC by WLAN

- ① Connecting to PC by WLAN.

  About WLAN connecting method, please refer "101SI Quick Start" or "SoftBank 101SI User Guide".
- ② Start Upgrade tool after download from SII home page.
  - **※**Upgrade tool is compressed in ZIP form.

Please thaw the upgrade tool downloaded in arbitrary folders, such as a desktop.

③ Connecting to 101SI by Upgrade tool. Click Connect button ( on Upgrade tool. After that, status display shows "Connecting with 101SI".

- \*When connected with 101SI, Status Display shows current 101SI firmware version.
- XIf 101SI firmware is already upgraded, cannot upgrade.
  - In this case, close upgrade tool by clicked Exit button ( X ).
- \*If "Please Check the Wifi Connection between your device and 101SI." was showed in Status Display, WLAN connection may fail. Please check whether the PC and 101SI are connected by WLAN.

If WLAN connection is completed, the IP address of 101SI may be different. Click Setting button, and enter the old IP address.

## 101SI Upgrade

1 After 101SI completed to connect with WLAN on the upgrade tool, Click the upgrade button( on and upgrade process will start.

"Updating..." is showed in Status Display during upgrade.

- ★Updating takes several minutes.
- \*\*Don't Power Off 101SI or PC, or don't remove a battery pack, it might affect the upgrade.
- ② After upgrade was finished, "FW Update completed..." is showed in Status Display. Then close the Upgrade tool.( ) After that, 101SI is rebooted automatically. Don't power off until rebooting is completed.
- \*\*101SI firmware version can be checked from Web UI after firmware upgrade. Enter URL http://192.168.1.1 (default) to PC browser, and login to Web UI. The default ID is "user" and Password is "0000".

## Troubleshooting

## Troubleshooting List

No.	Symptoms	Reference
1	Unable to connect to 101SI by WLAN connection.	P.11
2	Unable to upgrade.	P.12

## **How to Respond**

#### Unable to connect to 101SI by WLAN connection.

- ① Make sure 101SI is properly connected to PC.
- ② Was IP address of 101SI already changed? (default: 192.168.1.1)

  If IP address of 101SI was changed, click the Setting button of Upgrade tool.

#### Unable to upgrade.

- Already is the latest software, the display will show "The 101SI FW is same or higher version than current version."
  - In this case, the upgrade is unnecessary.
- If Battery level is level 1, the following upgrades are unavailable. Upgrade after charging Battery.
- If "Update failed. Try again..." was showed, upgrade once again.

  Then, when upgrade fails again, restart 101SI and PC. Connect 101SI via WLAN, and upgrade once again.
